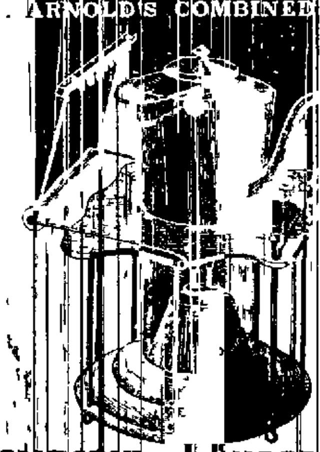
ARNOLD'S COMBINED



## FOOT STOVE, LANTERN, AND NURSE LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county the above valuable invention is now prepared to offer them to the public.

As a FOOT STOVE, it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather and will be found to be an indispensable article in traveling. It is heated by an oil alcohol or fluid lamp, the flame of which is protected from every external object.

As a LANTERN it answers all the usual purposes, and is less likely to be overset, or get broken and can be used as a house lamp with equal advantage.

As a NURSE LAMP and in cases of sickness it is of great advantage in keeping drinks ... warm beside giving the light desired; and for cooking in small quantities. For making tea &c it will be found very convenient as a quart of water can be boiled in fifteen minutes; and a flat iron heated in the same length of time.

In fact the various purposes to which this neat apparatus can be put may be readily conjectured by every one. No further description is required, as no one can misunderstand its general utility. To say any thing more respecting its adaptability to a hundred purposes would just be telling what our readers can all see at once for themselves.

GREAT American and Foreign Office,

FOR

Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U S PATENT OFFICE, WASHINGTON.

**R. H. EDDY,**

No. 76 State Street, opposite Kilby St., BOSTON

IMPORTANT INFORMATION TO INVENTORS —The subscriber, (late Agent of the U S Patent Office under the Act of 1837) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him THIRTY DOLLARS (instead of twenty, as paid back by others) will be remitted by him in case of failure to obtain a patent, on the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe and can prove that at no other office of the kind are the charges for professional services so moderate.— The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works and full accounts of patents granted in the United States and Europe render him able, beyond question to offer superior facilities for obtaining patents.

Caveats Specifications Assignments and all Papers and Drawings necessary to the procural of patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there are here saved inventors.

Copies of the claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britain France and other foreign countries through agents of the high est respectability.

R H EDDY Solicitor of Patents

TESTIMONIALS

"During the time I occupied the office of Commissioner of Patents, R H EDDY, Esq of Boston did business at the Patent Office as Solicitor for procuring Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office,

EDMUND BURKE, Late Commissioner of Patents

[From the present Commissioner.]

"AUGUST 17 1855 —During the time I have held the office of Commissioner of Patents R H Eddy Esq of Boston has been extensively engaged in the transaction of business with the Office as a Solicitor. He is thoroughly acquainted with the law and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse

The New England Family Newspaper.

New Type and a New Press.

GREAT REDUCTION TO CLUBS.

PAYMENT INVARIABLY IN ADVANCE.

ENCOURAGED by the very liberal patronage heretofore bestowed upon the JOURNAL and in accordance with the spirit of the present age the proprietor has decided to reduce the price of the Weekly Journal to Clubs, to the following rates.

| | |
|---|---|
| One copy one year | $2 00 |
| Two copies, one year, to one address | 3,00 |
| Five copies, one year to one address | 6,00 |
| Ten copies, one year to one address | 10,00 |

PAYMENT TO BE MADE

INVARIABLY IN ADVANCE

At the expiration of the time for which advanced payment has been received the paper will in all cases be stopped. By the adoption of this cash system the employment of agents to collect subscriptions will be unnecessary, and their expenses will be saved to the subscriber.

THE BOSTON JOURNAL

has for many years confessedly stood at the head of the newspaper press of New England. This position was attained not through any special effort on the part of its publishers to increase the circulation by agents or other of the usual means, but because it has proved to be such a paper as every moral intelligent man in the community might with propriety introduce into his family circle, to be read by his children and from which he might draw for them both instruction and entertainment. With such a character it has earned the position it occupies and the fact that its circulation is much larger than any other paper of its class in New England is the clearest proof of the estimation in which it is held by the reading community.

It is our purpose now to greatly extend the circulation of the Weekly Journal. Preparatory to doing this we have procured

**New and Beautiful Type,**

with which to print it and have also ordered one of

**Hoe's Six Cylinder Fast Presses,**

with which we can print FIFTEEN THOUSAND COPIES AN HOUR. This press will enable us to hold back our forms to a very late hour for important news, and yet to work off the edition in season for the mails. With this improvement in our printing department we believe we can give our readers as hand some a paper as is printed in New England. The general character of the paper has proved so acceptable that we shall attempt no change. It is and will be emphatically

**A Family Newspaper.**

We intend that it shall be a complete record of the events of the age in which we live, that the attentive and careful reader of its pages shall be able to gather from them accurate and reliable information of every event of interest in politics, the arts and sciences, morals and religion, in this country and in foreign land, and that they shall have this information at an earlier day than they can obtain it from any other source. To collate this intelligence from the thousand different sources whence it is to be sought, to separate the wheat from the chaff, and to arrange and present it to the reader in a concise and intelligible form is a work requiring not only great expenditure of money but also years of experience. We have the services of MEN EDUCATED FOR THE BUSINESS to prepare the matter for the JOURNAL, and we shall spare no expense to enable them to do their work in the most thorough manner.

The COMMERCIAL DEPARTMENT of the JOURNAL is second to that of no other weekly paper in New England. It embraces a carefully corrected PRICES CURRENT, A REVIEW OF THE MARKET for the week, stating the amount of business in the different articles of merchandise and the variation in prices ... reports of the MONEY MARKET, original reports of the Brighton and Cambridge CATTLE MARKETS, the NEW YORK CATTLE MARKET, ... reports ... prepared ... thoroughly conversant with the ... changes and they are relied on by thousands of merchants and traders throughout the country, to guide them in their purchases ...

The LITERARY DEPARTMENT will embrace reviews and extracts from the new publications of the works issued by the leading publishing houses throughout the country. In this way the readers of the JOURNAL get the cream of the Literature of the country and are enabled to select from the flood of new books issued such as they may desire for their centre tables or the shelves of their libraries.

In the MISCELLANEOUS DEPARTMENT we shall make provision for the entertainment and instruction of our young friends—Ye children. A good story—calculated to improve the mind and heart while it furnishes ... for the passing hour will be a prominent feature in this department.

THE BOSTON DAILY JOURNAL

(Morning or evening edition as may be desired) is sent to subscribers by mail to any part of the United States for SIX DOLLARS a year. By means of this Press we are able to keep the forms for the DAILY JOURNAL open several hours later than any other daily paper, and thus not unfrequently to publish important news from TWELVE TO TWENTY FOUR HOURS IN ADVANCE. The average circulation of the DAILY JOURNAL is more than double that of any subscription of two cent paper published in Boston.

THE SEMI WEEKLY JOURNAL,

containing all the reading matter of the Daily—is published TUESDAY and FRIDAY mornings, at FOUR DOLLARS a year.

BOSTON JOURNAL FOR CALIFORNIA

is printed on the 4th and 19th of each month, for mailing by the steamers of the 5th and 20th. It is made up with the greatest care for the information of New England men in California. Over TWELVE THOUSAND COPIES a month are now sent there which is a much larger circulation than any other paper printed in the Atlantic States has. It is mailed at this office for SIX CENTS a copy. A person sending one dollar can have one each of sixteen numbers sent to any one they may desire.

Agents and Newsmen supplied with either Edition of the JOURNAL on the most liberal terms.

Orders for either edition of the JOURNAL must be invariably accompanied by the CASH, and should be addressed to

CHARLES O. ROGERS, 12 State Street, Boston

Boston, December 1855

## A Southern Plan for Colonizing Kansas.

That every possible effort will be made to secure the permanent establishment of slavery in Kansas there is not the slightest doubt. Various plans have been suggested to effect that purpose; and among them is one by Hon. A. G. Brown, U. S. Senator from Mississippi, given in a letter to one of his constituents. His proposition is for the State of Mississippi to colonise three hundred slaves in Kansas, and appoint three hundred young men to defend them with ballots, and if necessary, with bullets. To do this he advocates a tax of one dollar a head on every slave in the State. He says that if all the slave States would follow the example, in twelve months there would be a slave colony in Kansas that all the abolitionists in the Union could not expel. He thinks it will not do to rely on individual enterprise.

Thus it will be perceived that the friends of Kansas throughout the Free States must by no means conclude that the victory is won, and that nothing remains for them to do. A Kansas Emigration Society has lately been formed at Gainesville, Mississippi, of which the object is to raise money to defray the expenses of emigrants from the South "to meet their foes at the ballot-boxes, and if necessary, with rifle balls." Speaking of this circumstance, The New Orleans Courier says:

"Organizations of a similar character are contemplated in every county in that State, and we hope the excellent example will be speedily followed in Louisiana. It is full time that our citizens were awake to the great and growing importance of doing all that lies in their power to thwart the dangerous incendiary and revolutionary schemes now in progress in Kansas—urged on, as they are, by the money and influence of powerful and unscrupulous factions of Abolitionists, and abetted by organized bands of armed conspirators."

Much individual effort is also making at the South, in order to increase the strength of slaveholders in Kansas. Mr. Jefferson Bufford, one of the richest men of Alabama, proposes to raise a company of 300 emigrants, and to start with them for Kansas by the 20th February. To effect this object he proposes to invest $20,000 of his ample fortune in the undertaking. He offers to each emigrant a free passage to Kansas, a support for the first year, and 40 acres of the best land in the world. The whole South is agitated upon this subject. Virginia has already sent out a large body of emigrants. Mr. Carlyle took out 42 settlers from Griffin a few days since, and was followed shortly afterward by Capt. Allison, with 100 more from Atlanta.

South Carolina Democracy vs. Maine Democracy.—The Democratic Legislature of South Carolina, as we see it stated in the papers, has passed a bill requiring naturalized citizens to reside in the State two years after naturalization, before being entitled to a vote. The law of this State, passed last winter, and about which so much fuss has been made, only required naturalized citizens to present their papers three months prior to the election.

The Baptist meeting-house at Calais took fire on the 6th inst., but was extinguished without material damage. On the same day the cabinet-maker's shop of Crosby & Powers took fire, but was saved. The Advertiser says there is a smart chance for a great fire in that village. On the above named occasion the thermometer stood at 16 below zero; with a strong N. E. wind blowing upon the other buildings, and there is "no engine, no fire company, and nothing to work with."

During the last two years the Virginia Colonization Society has transported to Liberia 316 colored persons. Under the law of 1850, levying a tax upon free negroes, in aid of the Colonization funds, the sum of $50,000 has accumulated, and owing to legislative restrictions remains unexpended.

Mr. John Lawrence Bazier, in the Louisville Times, offers to bet from $5000 to 30,000 that he can jump five feet further on a dead level than any man in Kentucky—three feet further than any man in the United States—one foot further than any man in the world—or that he can stand flat footed upon the earth and leap a black wall fifteen feet high and four feet thick!

The total population of the state of New York on the first day of June last was 3,470,059. This is an increase since 1845 of 865,564; and since 1850 of 372,665. There are 632,753 aliens included in this population. The number of voters in the state is as follows:—Native 516,745; naturalized 135,076; total, 651,821.

Gun barrels have lately been found on the field of Hubbardston battle, in Vermont, some of which, after being buried more than 75 years, contained cartridges that exploded with considerable violence when the barrel was heated in the fire.

Rightly Expressed.—A friend of a dying clergyman, to whom he was dictating a letter, had written 'I am still in the land of the living.' 'Stop,' said the gasping man, 'correct that, and make it read, I am still in the land of the dying; hope soon to be in the land of the living.'

Will the Whig inform us what the Governor of Maine has particularly to do with "the particular condition of things in Kansas"? —Democrat.

Quite as much as he has to do with the question of "slavery in the Southern States," to which Governor Wells devotes the first part of his Address—and the abolition of which he deprecates.

Joseph P. Pratt of Westbrook was chosen messenger to the Governor and Council, on Friday.

Mr. Buchanan, it is said, expresses in his correspondence, a confident belief that peace will be concluded before spring.

Bangor Mechanic Association.—At the annual meeting of the Bangor Mechanic Association, held Thursday evening, January 10th, the following officers were elected:

*President*—J. W. Strange.
*Vice President*—A. W. Benson.
*Treasurer*—S. J. Witherley.
*Secretary*—Samuel Darling.
*Trustees*—Lyman Seavey, H. H. Fogg, I. W. Cole, Daniel Holman, R. B. Wiggin.
*Librarian*—Daniel Holman.

Nothing Gained by going West.—The recent cold weather has been quite as severe in the western states as in New England; and it appears that persons who go from Maine to Illinois, Wisconsin or Kansas, to escape the rigors of our northern winters, gain but little by the change. The weather reports from the West say that the mercury has been from 10 to 20 below zero at many points in the great West, below our own latitude. At Frankfort, Ky., *seven degrees* further south than Bangor, the mercury was 16 below zero, one day last week.

Four of the thirty-one Governors of States in this Union are named Johnson, viz: Joseph Johnson of Virginia, Herschell V. Johnson of Georgia, Andrew Johnson of Tennessee, and J. Neely Johnson of California.

The snow storm on Sunday and Sunday night was the heaviest of the season in this State.—About a foot of snow fell, and it is somewhat drifted.

The New York Times copies the lumber survey of Bangor, for the past year, and calls it 211,669,193 *cubic* feet. The survey is board measure, which makes a decided difference.

The mercury fell to 24 below zero, at Calais, on Thursday last.

The Military Art in Kansas.—A correspondent of the Worcester Transcript gives the following description of the entrenchments which were thrown up for the defence of Lawrence, K. T., during the recent difficulties, under the direction of Col. Lane:

"The fortifications are certainly a great work, considering how short a time was consumed in their construction. They are five forts built of sods and earth, three of them circular, with a ditch twelve feet wide and three or four feet deep all around the outside; the walls of the fort, which were dug from the ditches, are twelve feet thick at the base, four feet at the top, and five to seven feet high. These works command the banks of the town, two on the right and one on the left. The front or entrance of Massachusetts street, is commanded by a semi-circular work of the same kind of material. At the foot of Massachusetts street, or nearest the river, and commanding the same is another one, one hundred feet square, and more permanently constructed; instead of sod walls on the inside, large timbers and saw-logs form the breastworks, against which is piled the earth from the deep wide ditch."

Of the exertions made to defend the place, and the condition of affairs after "peace" was declared, the following account is given:

"No one who has not been in a beleaguered town, can imagine the cost of defending themselves in such a state; everything and everybody has to be appropriated to the defense; property, however choice or sacred, has to add its mite to the common defence; women unused to hardships and exposure of life, have to take up the stern position of self-defence, and *every man* neglects everything but that. Our blacksmiths fixed guns and made spears and lances; our wagon makers put the handles to our home-made spears; our farmers plowed and dug in the ditches along with the soldiers, and freely gave up their hay and corn to feed the men and animals; the lawyers, merchants, physicians, and mechanics, all dropped the tools of their several callings, shouldered their guns and followed the call of the drum. Horses are killed or taken by the enemy; guns are lost or broken; saddles and bridles cannot be found; clothing, blankets, pistols, spades, shovels, pitchforks, tables, chairs, bed-clothes, and firewood are lost, damaged or stolen. Money is all spent—credit gone—poor Lawrence has been besieged, but she still has her honor, worth more than all; she gained a bloodless victory. They swore by high Heaven, that they never would return to Missouri without seizing our rifles and burning our town—they have gone, and we still have our rifles and our town.

Important to Shipbuilders.—Messrs. Cunard, Brett & Alsten, extensive Ship Brokers in Liverpool, close their circular of the 30th ult., embracing a list of vessels then on sail, with the following remark:

"In the years 1852 and '53, as well as the early part of 1854, the demand for ships of 1000 tons and upwards, became so great that vessels of this class advanced to unusually high prices whilst vessels from 100 to 600 tons remained comparatively low. The result has been the production in excess of large ships when estimated by the supply of small, whilst the demand of the latter continues good. To make such more marketable, they should in length be less than five times their width, sharp entrance and clean run, with long flat floors; should have keels, kelsons, bilges, and waterways, proportionably increased in strength so that they could combine with sailing, carrying, and light draft, strength and fitness to take the ground if required."

Who is the Author of Caste.—The Calais Advertiser says:

From internal evidence, we have the strongest reason for believing that "Ida May" and "Caste" were written by the same person, notwithstanding the denial on "good authority" which appeared in the last number but one of the Advertiser; and we assert on equally as good authority, although not the same, that the author of the one is the author of the other: this the public may rely on, for we know whereof we speak.

The reputed author of Ida May, is Mrs. Pike, who resides at Calais.

Mammoth Love Letter.—A New England gentleman in California, who corresponds with a young lady of this city, sent to his friend a letter, which arrived in the mails of the Geo. Law, on the 28th ult., and which contained *one hundred and forty-six pages* of letter paper! —*Fall River News*, Jan. 10.

## Pro-Slavery Fanaticism.

THE MODERN ABOLITION OF FREE SCHOOLS.

From The Richmond Examiner, Dec. 28.

We have got to hating everything with the prefix *free*—from free negroes down and up, through the whole catalogue of abominations, demagogueries, lusts, philosophies, fanaticism and follies, free farms, free labor, free niggers, free society, free will, free thinking, free love, free wives, free children and free schools, all belonging to the same brood of damnable isms whose mother is Sin and whose daddy is the Devil—are all the progeny of that prolific [illegible] which great Satan on his arrival at the gates of hell, [illegible]

—Seemed woman to the waist, and fair,
But ended foul in many a scaly fold,
Voluminous and vast; a serpent arm'd
With mortal sting; about her middle round
A cry of hell-hounds never ceasing bark'd
With wide Cerberean mouths full loud, and rung
A hideous peal; yet when they list would creep,
If aught disturbed their noise, into her womb,
And kennel there; yet there still bark'd and howl'd
Within unseen.

But the worst of all these abominations—because, when once instilled, it becomes the hotbed propagator of all—is the modern system of free schools. We [illegible] who it is that has charged and proved that the New England system of free schools has been the cause and prolific source of all the legions of horrible infidelities and treasons that have turned her cities into Sodoms and Gomorrahs, and her fair land into the common nestling-places of howling bedlamites. We abominate the system because the schools are *free*, and because they [illegible] that which ought to be the reward of toil and earnest, ardent, and almost superhuman individual effort, cheap, commonplace, pri[illegible] and uninviting. As there is no *royal* road to learning, so there ought to be no *mob* road to learning.

A little learning is a dangerous thing—to the individual, to society, to learning itself, to all conservatism of thought and all stability in general affairs. The sole function of the free school is to supply that "little learning;" and thus it is charged to the brim with [illegible]endisms, heresies, and all the explosive elements which uproot and rend and desolate society.

Another Shoal of Yankee Revolvers Shipped in Cotton Bales to the Baltic.—Among other items in the English papers received by the Canada is the following, contained in the London Shipping Gazette of Friday, Dec. 21:

"A correspondent whose letter is dated Faro Sound, Dec. 4, states that the American brig Robert Patten has been seized by the Swedish authorities at Stockholm, and found to have bales of cotton filled with revolvers on board. There are said to be other vessels similarly laden at Copenhagen, waiting for the departure of the English squadron."—*Plymouth (England) Journal.*

The vessel intended in the above paragraph is no doubt the ship Robert Patten, of Bath, which was loaded with a cargo of cotton and other articles for [illegible] by two firms of this city. The supposition, when she sailed, was that the allied fleet would, when winter approached, leave the Baltic, as they did last year, but this has not proved to be the case.

Letters from [illegible] dated Dec. 6th, (two days later than the above extract) state that the jealousy and suspicion of the English in the matter, was so excessive, that one of the firm who was on board the vessel, unloaded the cargo at Copenhagen and requested the Swedish authorities to critically examine it!—This was done, the bales of cotton having been pierced into with a [illegible] iron rod to effectually ascertain the [illegible] of the presence or absence of the much dreaded revolvers. Neither armor nor any other munition of war was found, and the Swedish officials gave the captain of the Robert Patten a certificate of the fact, which was forwarded to the commanders of the allied fleets.

Notwithstanding this, so incredulous were the English officers, a war steamer was actually despatched to a place below Copenhagen, where the Robert Patten was at anchor for about a fortnight. At this spot the [illegible] actually dragged the bottom to a considerable distance, in the hope of bringing up guns and other articles contraband of war, which they supposed the Yankee skipper [illegible] from fear of the scrutiny of the English fleet might have thrown overboard. The Robert Patten will proceed to Konigsberg, Prussia, from whence her cargo will be conveyed overland to Russia.—*Traveller.*

Accident and Wonderful Endurance.—The Grand Rapids Enquirer states that an accident occurred in the town of Paris, about six miles from that city. A young man 18 years, of Mr. Nicholas Carlton, [illegible] chopping down a tree in company with another young man. As the tree was falling, it struck another tree and swerved from the [illegible] in which it was expected to fall, striking young Carlton, knocking him down, crushing his right arm to a jelly, and the butt of the tree [illegible] resting on his head, forcing it [illegible] into the ground. The skull was somewhat fractured, but strange to tell the head was comparatively uninjured. The young man with [illegible] chopped off the log and endeavored to [illegible] off Carlton's hand, all the time supposing [illegible] to be [illegible] but he could not move the log and was forced to go a mile and a half to obtain assistance. When the log was rolled away it was ascertained that Carlton was alive. He was accordingly conveyed home. The following day his arm was amputated and he is likely to recover.

Death from Exposure and Neglect.—On Saturday evening [illegible] a young woman recently married to a Mr. McKenney, but better known as Margaret [illegible] Graham, formerly of Veazie, walked from [illegible] to this city. And as it appears went to [illegible] where she was [illegible] in with her feet badly frozen. She remained there some time and [illegible] late hour reached her home in Columbia [illegible], where she died on Tuesday. Coroner [illegible] held an inquest, of which John E. G[illegible], Esq., was foreman, whose verdict, after [illegible] considerable investigation, was that deceased came to her death from congestion of the lungs, caused by exposure and gross neglect.—*Journal.*

A Rich Lump.—We were shown yesterday a solid hemisphere of pure gold, taken from the Columbia mine. The value of the lump is $1,300. These mines are owned by a few enterprizing gentlemen, who are working them with great success. A company partly composed of the proprietors of the Columbia mine, are about to open the Parks mine in the same neighborhood, which promises to yield an average of $300 a ton of the precious metal. The proprietors of these mines count on an aggregate product of about $25,000 a month. This, considering the moderate cost of working, is a golden harvest—almost equal to the richest returns from the placers of El Dorado.—*N. Y. Mirror*, 8th.

A wild man, seven feet high, is said to be roaming through the great Mississippi bottom, in the State of Arkansas. Numerous travelers and hunters have asserted that they have seen him, but none have ever been able to get near enough to give particulars concerning this strange being.

Comfortable.—There is a village in Michigan where the church-bell is rung every day at twelve o'clock for the people to take their quinine, as they have the chills and fever all around.

A Hint to Medical Gentlemen.—When the mind's diseased, it's frequently not healing a man wants so much as fresh-pooling.

The hardest thing to hold in this world is an unruly tongue. It beats a hot smoothing iron and a kicking horse considerably.

## LEGISLATURE OF MAINE.

Friday, Jan. 11.

Senate.—Mr. Butler from the joint select committee, appointed to examine the report of the Commissioner of the Treasury, reported that they have examined the accounts contained in the books of the department, and found them to correspond with the Commissioner's Report; and found the vouchers and certificates correct, and perfectly satisfactory. They also accord great credit to the Commissioner and his Assistant for the very systematic and accurate manner in which the books and papers pertaining to the office have been kept, and that they unanimously bear testimony to the very satisfactory manner in which *all* the business of the department has been conducted.

This report having been read, was laid on the table.

Petition of A. K. Parris and 601 als., in relation to the Insane Hospital, came from the House referred to the committee on the judiciary. This petition asks that the laws in relation to the Insane Hospital may be so far amended, as to provide that the State shall pay the expenses of supporting all such insane persons as may be sent to the Institution who are unable to support themselves. The Senate nonconcurred with the House in the reference of this petition, and referred the same to the committee on the Insane Hospital.

On motion of Mr. Barnes, the Senate proceeded to the consideration of the report of the committee on Report of the Commissioner of the Treasury.

Mr. Barnes remarked that the report of the joint standing committee upon the report of the Commissioner of the Treasury was highly eulogistic, and was, undoubtedly, correct. He was sure that no flaws could be found in the accounts kept by William Caldwell. But he wished to know whether the accounts, examined by the committee, show all the facts. He desired information. He wished to know where the money is kept, and whether any profit accrues to the State, on deposits. He wished to ask the Chairman of that committee, three distinct questions; and wished to have explicit answers given thereto. The questions are these:

Whether the committee made any inquiry to ascertain in what places the money of the State has been deposited and kept during the last year?

Whether the committee made any inquiry to ascertain where interest or profit of any kind has been made within the last year, upon the deposits of the money of the State in any banks, or elsewhere?

If such interest or profit was in fact made, whether the same was received and credited to the use and benefit of the State, or if not, in what other manner the same was disposed of?

Mr. Butler was aware that the report of the joint standing committee was somewhat eulogistic of the officers of the Treasury Department. It perhaps was, unnecessary to have pronounced the encomium, but the committee were unanimous in their approval of the manner in which the accounts had been kept.

As to the questions propounded by the Senator from Cumberland, (Mr. Barnes) he would say, that the Commissioner informed the committee that there was money of the State deposited in different banks in the State. It was, moreover safely deposited, and fairly distributed. It was not confined to banks in any particular locality. It was in the keeping of banks in Augusta, Portland, Bangor, Machias, Calais, and elsewhere. The Commissioner, also, stated in reply to a question from Mr. Farley, one of the committee, that no interest has accrued to the benefit of the State.

Mr. Farley remarked that he understood the reply of the Commissioner to be, that he had received interest on deposits which was not credited to the State. And the Commissioner also stated that no contract had been made between him and the banks in relation thereto; but that the interest was tendered to him.

Mr. Butler resuming, said that the statement of the Senator from Lincoln (Mr. Farley) might be correct, though he understood the reply of the Commissioner differently.

Mr. Barnes said that there seemed to be an interesting question of fact as to the statement of the Commissioner of the Treasury about the interest on deposits. He wanted this made certain before he could vote to accept the report of the committee.

Mr. Butler moved to recommit the report, which prevailed.

Friday, Jan. 11.

House.—Resolve yesterday laid on the table, by Mr. Morse of Bath, was read the first time as follows:

Resolve requesting the Senators and Representatives in Congress from the State of Maine to vote for the admission of Kansas into the Union.

Whereas the people of Kansas Territory have formed and adopted a constitution, republican in character, preparatory to the admission of said Territory into the American Union of States, therefore

*Resolved*, That the Senators and Representatives in Congress from this State be most earnestly requested to give their influence and votes in favor of the early admission of said Territory as one of the States of the Union, whenever the people thereof shall present the constitution by them adopted, and apply for admission.

*Resolved*, That the Governor be directed to forward a copy of the foregoing resolve to each Senator and Representative in Congress from this State.

Mr. Lyman of Portland, moved that Wednesday, January thirtieth, be assigned for the second reading of the resolve. He believed that to be as early a period as was proper to act upon the matter. The Legislature should be thoroughly satisfied of the adoption of a constitution republican in its character, by the people of Kansas, and furthermore should dispose of some of the business of the State, which called them together, before proceeding to attend to the affairs of a distant territory.

Mr. Morse thought the objection a singular one, that we must wait for satisfaction as to whether a constitution of a republican character had been adopted in Kansas. That fact was well known and universally understood. We were all acquainted with the struggle which has been going on so long in that territory.

This resolution is stripped of all party character and description of any kind. Why, then, should we turn ourselves from our friends out yonder in their time of need? It will have no good influence to lay the resolve upon the table. Every man has made up his mind about the matter, and we ought to act up to what our duty requires. The people of Kansas have our warmest sympathies, and why should we, after our petty squabbles are adjusted—after the crows and wildcats have been legislated for, and bounties set on their heads—then, and not till then, say to these struggling freemen, we will remember you now that we have nothing else to look after.

Mr Talbot of Lubec, hoped the motion would prevail. He hoped nobody would impugn his motives when he said that if the people of Kansas desire it, he was in favor of its admission as a free State. But he had as yet seen no satisfactory evidence that the people of that territory have adopted a free State Constitution. The preamble of this resolve distinctly states that they have. Mr. T. did not know that, certainly not from any reliable source.

Mr. Morse thought the first objection answered. We did have full information in the papers on the subject. As for the non-organization of the House of Representatives in Washington, that made no difference. He called for the yeas and nays, which were ordered, and the resolve was laid on the table. Yeas, 77. Nays, 61.

Bill repealing the act annulling the naturalization powers of the State courts passed to be engrossed.

*Petitions presented*—Of Samuel H. Houlton and als. for a boom company; A. H. Kimball and als. for a new county to be formed from Lincoln and Waldo counties; Samuel J. Moulton for a Fish Company; Ansel Smith and als. for a boom at Chesuncook Lake.

We think there can be little doubt that 'the mother in Israel' whose devotion is recorded in the following extract from the London Watchman, was at the time of her death the oldest Methodist in the world: "Died at the Whitehall cottage, near Aberdeen, on the 8th of March, in the 110th year of her age, Mrs. Mary Mearns, grandmother of the Revs. John and William Mearns, Wesleyan ministers. She had been for upwards of 80 years a consistent member of the Wesleyan Methodist society.

There were built in the District of Passamaquoddy in the year 1855—two ships, four barks, nine brigs, seven schooners and one steamboat, tonnage 7483 61. In the District of Kennebunk 11 vessels, tonnage 2541,58.

Read the following tribute to WISTAR'S BALSAM, from the Kinderhook, N. Y., Sentinel, dated July 31.

"Hope Never Dies."

A remarkable cure of Consumption has recently been effected by this medicine in the town of Chatham, in this county, and which was related to us by Dr. Herrick, an eminent physician of that town, to whom we have permission to refer. A young lady, who had long labored under affection of the lungs, was considered by her friends as beyond the reach of medicine, and she was informed by her medical attendant that she must die. She was induced to send for a bottle of
WISTAR'S BALSAM OF WILD CHERRY,
as a last resort. The young lady experienced great relief, and two more bottles were successively procured and administered. She is now happy in the restoration of health.

## LATER FROM EUROPE.
ARRIVAL OF THE

## ATLANTIC
AT NEW YORK.

Boston, January …

The steamship Atlantic arrived at New York yesterday afternoon, with London dates to 31st ult.

The advices contain no new feature of importance. Negotiations for peace had but little progress.

Prince Esterhazy had reached St Petersburg with the ultimatum of the Western Powers. No reply had been received.

It is reported that Prussia and Saxony, as well as Austria, would urge the Czar to accept the terms offered.

It is rumored that Denmark would probably join the Western Alliance.

There is no news of interest from the seat of war.

The overland India mail with dates from Hong Kong to November 16th and Calcutta to the 30th, had arrived at Trieste.

A despatch from Paris states that the Chamber of Stockbrokers has decided that the Russian loan shall not be quoted on the bourse.

Advices from Constantinople to the 17th state that 60 merchantmen had been wrecked off the Sulina mouth, and that 400 lives were lost.

It is reported that a French frigate was wrecked, no date, off the Spanish coast, and that all hands were lost.

Markets.

Breadstuffs, *Liverpool*, Dec. 30th.—authorities report breadstuffs with large supply but limited demand.

Wheat 3d.; flour 1s a 18d. and corn … lower.

Provisions. Richardson reports beef … ed, and nothing doing in Pork. Bacon moderate; lard quiet and unchanged; sugar and firm.

The Manchester market is steady.

We have no London report.

Money continues in demand at … rates.

Consols drooping at 88½ and 86…

Bullion decreased £321,000.

Congressional.

Washington, Jan. …

The Senate met and adjourned to Thursday.

In the House, Mr. … ment made by Mr. Campbell on Saturday, there was no ballot in the … the ballots were then taken … ings follows: Banks 95, Richardson 60, Fuller 34, Pennington 8, scattering …

Another vote then followed, resulting, Banks 95, Richardson 64, Fuller 33, Pennington …, scattering 9. Adjourned.

English Matters.

It is reported here that England, rather than go to war with the United States on the Central American question, will recede from its assumed protectorate over the Bay Islands and the Mosquito question. It has been recently stated that the last government despatches transmitted to England was sent through Crampton. If any were sent they were through the regular channel.

The despatches received by the Government by the Canada were of no especial importance.

Fillibustering—Parker H. French.

Certain foreign ministers apprehend, what they consider undoubted authority, the Walker movement embraces within the scope of its ultimate operations, the conquest of Cuba, Porto Rico, and St Domingo. If their constant watchfulness in that quarter, frequent communications with their governments on the subject.

The report of Gen. Shields, made a year ago in the Senate, has been reproduced, in which Parker H. French is charged with obtaining $200,000 worth of government stores on a forged letter of credit and branding him an impostor. This has materially operated to damage Mr French's prospects here.

The Storm—Disasters.

Boston, Jan. …

The storm of Saturday night and Sunday was very severe on the coast.

Ship Irene of N. Y., Williams, from Liverpool, Dec. 1st for Boston, with a general cargo consigned to Enoch Train & Co., struck on … through her yesterday morning, when her masts were cut away, and last eve she drove ashore at Point Shirley beach, where she lies head on, and has about six feet of water in her hold. The crew are all safe. One man had his leg fractured by the falling of the mast. The Irene is 1183 tons, and is owned by Sturges, Clearman & Co. of N Y.

A large schooner is ashore on Shag Rock, near the outer light, with the sea making a complete breach over her. No assistance could be rendered, and all on board undoubtedly perished.

Marine Disasters.

New York, Jan. 14.

The ship Stingray has gone to pieces and her cargo is strewn along the beach with the exception of one lighter load worth from $7000 to $80,000, which was got out previous to the storm of Saturday.

The schooner Rio Grande, from Virginia, went ashore on Saturday near the Stingray. The crew were saved in life boats.

The steamship Grenada from New Orleans on the 5th and Havana the 8th inst., has arrived.

The North Star from New York arrived at Havana on the 8th.

As the Grenada was coming up the lower bay last night in charge of a pilot, she went ashore to the westward of West Banks, where she now lies, and will have to discharge. The passengers and mails were brought up to-day by a steam tug.

**Congressional.**

WASHINGTON, Jan. 4.

The Senate met and adjourned to Thursday.—In the House, Mr. Trefton corrected a statement made by Mr. Campbell on Saturday, that there was no Baptist in the Congressional library.

Ballots were then taken for Speaker, resulting as follows: Banks 95, Richardson 60, Fuller 34, Pennington 8, scattering 8.

Another vote then followed, resulting: Banks 95, Richardson 61, Fuller 33, Pennington 7, scattering 9. Adjourned.

Hence their constant watchfulness in that quarter, and frequent communications with our government on the subject.

The report of Gen. Shields, made last year to the Senate, has been reproduced, in which Parker H. French is charged with obtaining $900,000 worth of government stores on a forged letter of credit and branding him as an impostor. This has materially operated to damage Mr French's prospects here.

**The Storm—Disasters.**

BOSTON, Jan. 14.

The storm of Saturday night and Sunday was very severe on the coast.

Ship Irene of N Y, Williams, from Liverpool, Dec 1st for Boston, with a general cargo consigned to Enoch Train & Co., struck on Winthrop bar yesterday morning, when her masts were cut away, and last eve she came ashore on Point Shirley beach, where she lies head on and has about six feet of water in her hold. The crew are all safe. One man had his leg fractured by the falling of the masts. The ship is 1138 tons, and is owned by Sturgis, Clearman & Co. of N Y.

The schooner Rio Grande, from Virginia, went ashore on Saturday near the Stingray.—The crew were saved by life boats.

The steamship Grenada from New Orleans on the 6th and Havana the 9th inst., has arrived.

The North Star from New York arrived at Havana on the 8th.

As the Grenada was coming up the lower bay last night in charge of a pilot, she went ashore to the westward of Hart Banks, where she now lies, and will have to discharge. Her passengers and mails were brought up to-day by a steam tug.

# FROM CALIFORNIA.

ARRIVAL OF THE

## Empire City!

NEW YORK, January 14.

The Empire City, from Aspinwall, with California mails of the 20th December, and $1,200,000 in gold dust, arrived to-day at one o'clock. She connected at the Isthmus with the steamer Sonora.

The steamer Golden Age left Panama on the last instant, with the Empire City's outward passengers.

**ANOTHER ARRIVAL!**

The steamship Northern Light arrived at a late hour last night from San Juan via Key West with California dates to December 20th. She brings $840,000 in specie and upwards of 300 passengers. The prominent points of news have been already received by telegraph via New Orleans.

Breadstuffs firm, advancing.

Trade in San Francisco dull. Money tight. Domestic produce firm and advancing. Imports declined in prices. Haxall flour $16. Butter, choice, 35d.

**From Nicaragua.**

Matters at Nicaragua are said to be improving.

San Salvador and Honduras have officially recognized the government of Rivas, and a minister from Honduras is reported on his way to Granada.

Walker was receiving continued accessions to his forces.

Kinney was still at San Juan del Norte. A large number of his men have recently joined Walker.

An expedition under Roman Rivas, son of the President had fortified themselves near Castillo Rapids and threatened to seize the Transit Company's steamer, and, the property of the passengers, but Com. Paulding, at the request of the Company sent forward an armed party, when Rivas and party fled. Kinney was to proceed with an armed force for the further protection of the place.

The mines of California are yielding more abundant than ever. Several new ones had been opened.

The Northern Light left in port of San Juan frigate Potomac and steam sloop Fulton.

**From Oregon.**

The Indian war was raging with increased fury. The Oregon mounted volunteers, under Lieut Kelley, attacked the Indians at Fort Walla-walla, December 8th, and fought them 48 hours, losing eight killed and eleven wounded. Among the killed were Capt Bennett and Lieut Barrows. The Indians lost their chief and 50 men. The volunteers were short of ammunition and had sent to Fort Hermiatta for supplies.

Gen Wool is at Fort Vancouver in bad health. He was arranging preliminaries for a campaign. Two steamers had been dispatched from San Francisco with ordnance stores and supplies for Gen Wool.

**From Washington Territory.**

Dates from Washington territory are to the 10th of Dec. A party under Lieut Slaughter, had been surprised at the Forks of the White and Green rivers by a large party of Indians. Lieut S. and three others killed.

One hundred and twenty recruits for Walker's army left San Francisco the 20th in the Cortes.

**From the Sandwich Islands.**

Dates from the Sandwich Islands to Dec. 10. Nothing important had transpired.

From Australia we have dates to Oct 3d.

**Recall of Mr. Crampton.**

NEW YORK, January 14.

The Commercial Advertiser of this evening has the following editorial:

"We regret to be assured from a source that precludes all doubt of the correctness of the information, that the President has instructed Mr Buchanan to demand from the British government the recall of Mr Crampton on the ground of his participation in the enlistment of men for the war in the Crimea. In common with a large proportion of our commercial fellow citizens, we have hoped that the reports to this effect hitherto made public were rather conjecture than well ascertained fact, receiving the more general credence because of their probability. We are constrained to abandon that hope, and to grant full credit to the statement which some of our contemporaries some days ago very confidently set forth.

## Pennsylvania U. S. Senator.

HARRISBURG, Pa., Jan. 14.

Ex-Governor Bigler was to-day elected U. States Senator by the Legislature, receiving 82 votes. The remainder of the votes were thrown scattering.

THE GOVERNORSHIP OF WISCONSIN.—*Madison, Jan 11.*—Gov. Barstow delivered his message to-day.

In the House, Mr Mills said he should receive Barstow as Governor. Mr Bashford commenced proceedings in the Supreme Court to contest Barstow's election.

FOUR DROWNED.—*Boston, Jan 11.* A verdict was rendered by the coroner's jury on the recent Boston and Maine railroad accident. The jury attribute the disaster mainly to the stupidity of the engineer, censure the company for employing incompetent persons to fill responsible posts, and exonerate the conductor entirely. The engineer of the Freight train was slightly censured. But this and engineer of the freight train are from all blame.

# Dancing,—Dancing!

## NEW HALL,

## Lewis' Block---Main Street.

THE subscriber respectfully presents to his friends and the dancing public generally, the following plan upon which his academy for the future will be conducted.

For the season of 24 lessons, $6,00.

*Juvenile Classes*: the tuition will be the same as will be reduced one half, ($3,00.)—and at the south term (six lessons) can be taken at the convenience, if commenced within six lessons of the termination of the second term, each pupil will be received upon the same terms as one year.

*Private Lessons* can be had at any time, and pupils can avail themselves of these conditions by applying as above.

Adults, or of Juveniles, can be formed at the convenience of pupils, and the subscriber wishes to be particularly understood that he will continue to impart the most perfect instruction in the latest and most fashionable style of dancing, and his style of dancing is not superior to any other, an incorrect method taught by those who are unable or unwilling to do better.

## Crystalotype Portraits.

DAGUERREOTYPES can be accurately copied by the new Photographic process, enlarged to any required size, and beautifully colored in Oil, Water, or Pastil. Portraits are obtained from the life by this process, requiring no longer sitting than for a common daguerreotype, thus avoiding the serious inconvenience and fatigue of long sittings. Glass daguerreotypes, a new article of unsurpassed richness and durability, are now for the first time in Bangor, offered to the public. Their great brilliancy and permanency renders them peculiarly suitable for Pins, Rings, &c. The Public are invited to call and examine specimens at HARDY'S Portrait Gallery, near Main street, a short distance below the Bangor House.

## LAMPS and CANS.

HAVING purchased the Patent right for the State of Maine for the above Lamps, I am now prepared to offer them to purchasers in every variety, adapted to the use of Parlors, Churches, Stores, Factories, Vessels, Steamboats and Railroads.

These Lamps are constructed on scientific and philosophical principles, and are the *only sure* prevention against explosions from Camphene and Burning Fluids, being made of the most durable material, not subject to accident from breakage or corrosion—will burn freely without smoke, giving an equal and steady light, (the nearest to gas ever produced.)

The above Lamps have proved, after three years trial, to be the best Lamps in use, giving universal satisfaction, and proving perfectly safe.

These Lamps will be sold at wholesale or retail *as low* as the ordinary Camphene and Fluid Lamps, by J. S. RICKER, 13 Main Street, Bangor, Me., dealer in Lamps, Chims, Glass, and Crockery Ware.

### California Steamers,

**Carrying the United States Mail**

**5th and 20th of each Month.**

Reduced Prices! 100 lbs. Baggage Free.

*Through Tickets, including transit of the Isthmus via Panama R. R.*

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *safe* and *short* passage, without any detention on the Isthmus.

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama*, and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. E. BARTLETT, Agent,

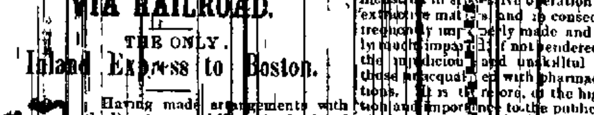
## BURIAL CASES!



THESE CASES are extensively used, and possess valuable advantages over all other Coffins, for transportation, Depositing in Vaults, or for ordinary Interments. They are made of the most Indestructable Materials, also enamelled inside and out to prevent rust or corrosion and when properly cemented, we have the gratifying reflection that the bodies of our deceased loved ones enclosed in them are *Free from Irruption of Water or Depredations of Vermin*, and may without offensive odor, be kept, obviating the necessity of hasty burials, or if desired transported to a distant land. The remains of the late

### HELMBOLD'S GENUINE PREPARATIONS.

HELMBOLD'S

HIGHLY CONCENTRATED

**Compound Fluid Extract Buchu,**

IS A CERTAIN SAFE AND EFFECTUAL REMEDY *For Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, Secret Diseases, Obstructions, Female Complaints,*

and all Diseases of the Sexual Organs, whether in

MALE OR FEMALE,

from whatever cause they may have originated and *No Matter of How Long Standing.*

This popular and specific remedy is now offered to the afflicted, and guaranteed to cure all the above complaints, it searches out the very roots of the disease, driving out all the diseased fluids of the body, thus removing the cause and rendering the cure *Certain and Permanent.*

This medicine allays pain and inflammation, which other remedies invariably [produc]e, and can be taken without the trouble and expense to patients. This infallible remedy has saved thousands upon thousands from the hands of *Merciless Quacks*, if not from premature graves. In cases of affection, the Compound Buchu is the only article worthy of the least confidence of the afflicted in performing *SAFE CURES.*

It contains no narcotic, mercury or other injurious drugs, but is a purely VEGETABLE COMPOUND. It is very agreeable to the taste, creates no perceptible odor, and may be taken by persons of either sex without hindrance from business or medical advice, as plain directions for use accompany the medicine. Reader, if you have any of the above complaints, do not neglect them.

*Delays are Dangerous.*

With this medicine you can cure yourself, and thus prevent all exposure.

*Try it and you will prize it.*

This medicine specially and effectually cures the most virulent form of secret diseases, and eradicates every particle of infectious matter from the patient, to a perfect state of *Health and Purity*. And as a medicine which must benefit everybody, from the simply delicate to the confined and desponding invalid, no equal is to be found, it acting both as a *Cure* and *Preventive* of all of the above ailments.

HELMBOLD'S

HIGHLY CONCENTRATED

**Compound Fluid Extract Sarsaparilla,**

—FOR—

*Purifying the Blood, removing all diseases arising from Excess of Mercury, exposure and imprudence in life, chronic constitutional disease arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald Head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all scaly eruptions of the Skin.*

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patients and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town or country hospitals or private practice, they have invariably given the most decided and unequivocal satisfaction and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines, and their superiority over all other preparations for such complaints. The proprietor recommends Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which [illegible] the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation and the employment of different menstrua in successive operation to take up the extractive matters, and in consequence are most frequently improperly made and not unfrequently much impaired, if not rendered totally inert, by the injudicious and unskilful management of those unacquainted with pharmaceutical preparations. It is therefore, of the highest consideration and importance to the public and to the faculty that there should be standard preparations of uniform strength and possessing the most advantages. To effect this, and obviate the evils alluded to, I have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form and are the most active preparations which can be made. Two table spoonsfulls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equals in strength one gallon of Syrup Sarsaparilla or decoction as usually made.

—PRICES—

Fluid Extract Buchu, $1 per bottle, or 6 for $5

### KENNEDY'S

**MEDICAL DISCOVERY.**

**The Greatest of the Age!**

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt-rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed, growing upon the pastures, and along old stone walls should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week.—There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

ROXBURY, Sept. 19, 1853.

This is to certify that H. H. HAY, Druggist, Portland is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

### The Great European Cough Remedy.

*Important to the Consumptive and the Public generally. The celebrated*

**Universal Cough Mixture**

IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY

*REV. WALTER CLARKE,*

Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged, and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing.

☞ Sold in trial bottles, 25 cents each, large bottles, each containing the quantity of four small ones, 75 cents each.

*Extract of a letter from Daniel Adams, Esq. of Bowdoinham, Maine.*

FEBRUARY 17th, 1853.

To Rev. Walter Clark. Dear Sir—The bottle of Cough Mixture which I bought of you at Topsham had the desired effect on my wife. She had been afflicted with a cough for two years—but this entirely removed it.

*From Rev Jesse Hayes, Lewiston Falls.*

Bro. Clarke—Every bottle of the Universal Cough Mixture which you left with me is sold—and I have several applications for more. As far as heard from all have been perfectly satisfied with the medicine. One man, who had a cough of long standing, attended with tightness of the chest and shortness of breath, so that he was laid aside from business, purchased one large bottle, and before he had taken one third of it, was perfectly cured and has had no cough since. He says it is the best medicine in the world, and cannot be recommended too highly.

JESSE HAYES.

*From Mr Fletcher Chick, agent for North Dixmont, Maine.*

Dear Sir—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had coughs of a year's standing, and others who have been doctored six months without receiving any benefit have been speedily cured by the Universal Cough Mixture.

*From Mrs Hubbard, Thorndike, Me.*

FEBRUARY 1 1853

To Rev. Walter Clark. Dear Sir—This certifies that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I had previously taken several kinds of medicine, and had been under the care of several physicians, without obtaining the least relief. happily your Universal Cough Mixture was recommended to me. I procured a bottle, which I began to take according to directions on the label by which in a few days I was entirely cured.

### A MARVELLOUS REMEDY

**For a Marvellous Age!!**

### HOLLOWAY'S OINTMENT!!

**The Grand External Remedy!**

By the aid of a microscope we see millions of little openings on the surface of our bodies—Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, Disorders of the Liver, affections of the Heart, inflammation of the Lungs Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes through bone or meat of any thickness—This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

**Erysipelas, Salt Rheum, and Scorbutic Humors.**

No remedy has ever done so much for the cure of diseases of the skin, whatever form they may assume, as this Ointment. No case of Salt Rheum, Scurvy, Sore Heads, Scrofula, or Erysipelas, can long withstand its influence. The inventor has travelled over many parts of the globe visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

**Sore Legs, Sore Breasts, Wounds and Ulcers.**

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumors. Professor Holloway has, by command of the Allied Governments, despatched to the hospitals of the East, large shipments of this Ointment, to be used under the direction of the Medical Staff, in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years standing.

**Piles and Fistulas.**

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

*Both the Ointment and Pills should be used in the following cases*

| | | |
|---|---|---|
| Bunions | Piles | Sprains |
| Burns | Rheumatism | Scalds |
| Chapped Hands | Salt Rheum | Swelled Glands |

The proprietor, in calling the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried article, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unrivalled by any similar preparations extant. The testimony in its favor given by the most prominent and well known Physicians and individuals, in all parts of the country is immense. The following from your own State is respectfully submitted, referring any who may still doubt, to my Memorabilia, or Practical Receipt Book for Farmers and Families, to be had gratis, of all the Agents for the German Bitters.

Principal office and manufactory, 120 Arch st., Philadelphia, Pa.

TESTIMONY FROM MAINE.

*Capt. Daniel Abbot*, Brooklin, Maine, July 16, 1854, says "I was taken sick one year ago last April, upon my passage from Havana to Charleston, S C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of 'Hoofland's German Bitters' in it, I sent for some immediately. This was about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man.—I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since. I have now given up going to sea and reside in this place where you should have an agency, as you could sell large quantities of it."

*Jos. B. Hall & Co.*, Presque Isle, Aroostook Co., Maine, April 24, 1854, say "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr. Clark to be a man of veracity, and have no doubt of the truth of his story."

Messrs. Jos. B. Hall & Co.—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was, taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters," I was induced to try them in her case, and sent to your store and purchased *one bottle*. She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years.—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters. WILLIAM CLARK.

Salmon Brook, Aroostook Co., Me.

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.

## SEWING MACHINES!

THESE machines have long sustained the highest reputation in the United States. THE FIRST PRIZE—A GOLD MEDAL—has been awarded to them at the great Exposition at the Palace of Industry in Paris, and thus they have the World's verdict of superiority.

Great improvements have just been made, so that they run without noise, [illegible] [illegible] doubles the ordinary speed [illegible]

**Twice as much Work** can be done in a day. The great [illegible] facturing establishments in the country use these machines exclusively, as they are able to perform every sort of work in the most perfect style.

As there are very great number of entirely worthless sewing machines [illegible] & Blodgett, Avery, Walson, Grover & Baker other patents, which have been sold [illegible] be used to any advantage, we hereby offer to receive all such machines in part payment of our own manufacture, *and give a [illegible] latest improved machines* [illegible] old machines thus obtained [illegible] up and destroyed. For particulars apply by letter or personally at our New York Office.

N. B. Local Agents wanted to make sales of our improved Sewing Machines. To persons properly qualified for the business a rare opportunity for profitable and pleasant employment is offered.
